

DICKSON

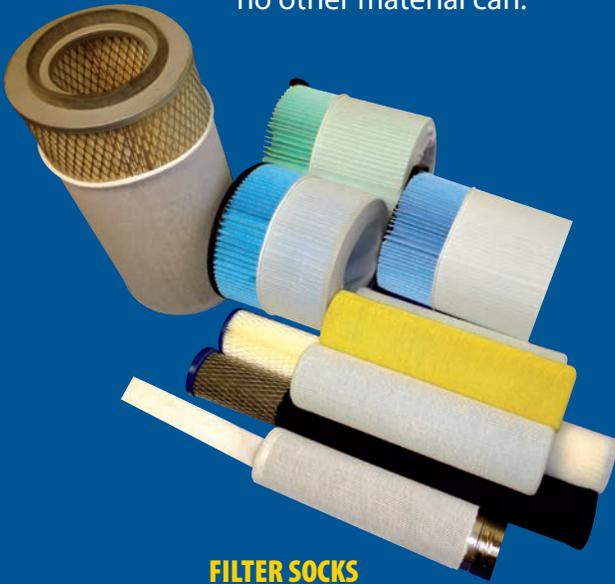

INDUSTRIAL FABRICS DIVISION

STOCKINETTE

DICKSON Stockinette provides a soft, sanitary protective wrap that adapts comfortably to various temperatures and conditions. Its ring spun cotton, poly-cotton, polyester or acrylic yarns perform like no other material can.

All fabrics available in any width desired. Available in cut and sewn units or 25, 50 or 75 yard rolls.

FILTER SOCKS

Efficiently cover all types of filters. Will contain absorption contents and will easily hold filter media. Will also aid in protecting filters during shipment.

FILTER COVERS

Outer standard covers for filtration of dust and foreign matter. Specialized covers upon request.

STRAINERS/ STRAINING BAGS

Various types and sizes available for many applications.
