FILTRATION FABRICS OFFER UNMATCHED QUALITY

MAXIMUM BLOCKAGE PREVENTION = FREE FLOWING DRAINS

SMALL QUANTITY ORDERS

With Dickson's Midwest central location you have the opportunity to order smaller quantities of product without losing significant cost benefit. This provides you with much tighter control of inventory management and freight savings.

DICKSON
DICKSON INDUSTRIES, INCORPORATED
Filtration Division • Des Moines, Iowa USA

EST. 1946
MADE IN U.S.A.

FITS MULTIPLE PIPE STYLES AND SIZES

DRAINKnit™ is a versatile product that fits all standard sizes of perforated PE and PVC drainage pipe. We can also customize the color pattern of the fabric to meet your specific coding needs.

UV PROTECTED FABRICS

Our black fabrics are infused with materials that provide protection against UV degradation due to exposure to the sun. This is particularly important if your inventory is stored outdoors and exposed to direct sunlight for an extended length of time.

PRODUCT LENGTH FLEXIBILITY

We offer product lengths that range from as small as 10 foot retail packages to rolls as large as 3,000 feet for commercial uses.

OTHER FEATURES:

- Tighter tubular knitted fabric
- 100% textured polyester
- Impervious to soil, sand and sediment
- Easy to apply
- Environmentally safe
- Available in White or Black
- ~ Special colors available upon request
